WORK EXPERIENCE

Unisys Philippines — **Mandaluyong, Philippines**
IT Service Desk Associate — Apr 2026 – Present

- **Infrastructure & Endpoint Management:** Administered and provisioned enterprise devices via Microsoft Intune and SCCM; deployed Windows, Linux, and iOS environments for continuous endpoint compliance.
- **Advanced Diagnostics & End-to-End Resolution:** Executed comprehensive troubleshooting for complex software, hardware, and network connectivity issues. Applied root-cause analysis and remote administration tools to identify technical issues from initial identification to final resolution.
- **Identity & Access Management (IAM):** Managed privileged accounts, user access, and security policies utilizing Microsoft Entra ID (Azure AD), Active Directory, and CyberArk.
- **Security & Authentication:** Deployed and troubleshoot Multi-Factor Authentication (MFA) protocols and SSO integrations utilizing Okta Verify and Microsoft Authenticator.
- **Enterprise Environment Support:** Supported virtualized infrastructure using Citrix Workspace/VDI and Desktop On Demand; resolved business-critical applications and Genesys Cloud connectivity issues.
- **Cross-Sector Service Delivery:** Managed incident lifecycles and L2 technical escalations via ServiceNow; successfully adapted support methodologies across Finance and Healthcare environments while maintaining strict SLA compliance.
- **User Lifecycle Management:** Executed end-to-end user onboarding and offboarding, including role-based access control (RBAC) provisioning, hardware configuration, and secure asset deployment.

TRYP by Wyndham Mall of Asia Manila — **Pasay, Philippines**
IT Support Intern — Feb 2025 – Apr 2025

- **Infrastructure & Security:** Configured FortiGate/Sangfor firewalls and Synology NAS. Upgraded core switches and wireless APs while resolving DHCP conflicts to improve network reliability.
- **End-User Support and Operations:** Delivered comprehensive technical support for 50+ workstations, automating software deployments to reduce system downtime and accelerating incident resolution times.

TECHNICAL PROJECTS

A. Web Application for a Private Motor Vehicle Inspection Center

Node.js · Express.js · TypeScript · Supabase · PostgreSQL · HashiCorp Vault · MinIO · EJS

- Engineered and deployed web applications utilizing HashiCorp Vault for KMS encryption and MinIO; automated backend workflows and implemented SHA-512 digital signatures with TOTP MFA for strict access control.

B. Simulated Campus Network Configuration
Cisco

- Architected a simulated multi-site network configuration utilizing Cisco Packet Tracer; implemented VLAN segmentation, Access Control Lists (ACLs), DHCP, and secure VPN connectivity across endpoints.
